THE GLAUCOMA FOUNDATION
OUR VISION-YOUR SIGHT

THE TGF ART CHALLENGE
TO CELEBRATE VISION

For thirty-seven years, The Glaucoma Foundation (TGF) has worked to identify, encourage, and fund scientific research with the goal of eradicating vision loss and blindness from glaucoma.

The Third Annual TGF Art Challenge to Celebrate Vision

From August 16 to September 16, celebrate visual art and raise funds for sight-saving research.

The TGF Art Challenge is about vision, for vision.

This annual event raises money for innovative research into the rescue and restoration of vision lost to glaucoma - a group of sight-stealing diseases afflicting 80 million people around the world. We invite everyone who makes art, and everyone who appreciates their visions, to join us.

ARTISTS SHARE

Enter in one of the three tiers (young artist, amateur, or professional) each of which is assigned a minimum donation level. Submit your bio and a digital version of your work - an original photograph, drawing, painting, collage, print, glass, pottery, textile, jewelry piece, or sculpture.

ART COMES INTO FOCUS THROUGH DONATIONS

Beginning on August 16, your submitted art will appear as a pixelated image on a personal fundraising page through our website. When donations in your honor reach the required level, your artwork will come into full focus and it will move into our virtual art gallery at the end of fundraising on September 16.

VIEWERS HONOR ARTISTS

Viewers honor the visions of artists with donations and, at the close of fundraising, will also be invited to acknowledge their favorite artwork from the virtual gallery.

TGF GIVES BACK

TGF will give back with two awards of \$500. The first will be announced on September 16 for the artist with the most donations. The second will be announced on September 22 for the artist with the most recognitions. Each participating gallery, artist and \$500+ donor will receive *Visions For Vision 2022*, a book of all the art and artists' bios, with a listing of participating art galleries.

RESEARCH IS ADVANCED

Gifts made through the TGF Art Challenge will support glaucoma researchers in the Foundation's 2023 grant cycle.
